DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on January 27, 2010, has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on January 27, 2010 was filed after the mailing date of the Notice of Allowance on November 30, 2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

3. US Patent #4,009,422, as shown on the IDS submitted on January 27, 2010, appears to have been listed in error, since the patentee and publication date cited on the IDS was different from the actual patent. A search revealed that US Patent #4,099,422 agreed with the patentee and publication date listed on the IDS and the subject matter is relevant to the application. Additionally, this is the patent number listed on page 2, line 21, of the specification. Therefore, US Patent #4,099,422 is assumed to be the intended reference, and has been considered in place of US Patent #4,009,422.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cicognani et al. (4,099,422) discloses an oil resistant toothed belt. Le Devehat (5,322,479) discloses an endless power transmission system.
